

# Autonomic Response Testing 2010 Seminar Series

All Seminars Sponsored By Klinghardt Academy of Neurobiology,  
[www.klinghardtneurobiology.com](http://www.klinghardtneurobiology.com)

To register: <http://stores.homestead.com/klinghardt/StoreFront.bok>, OR  
(303) 499-4700. **Sign up for the entire series for \$1100!**

ART is different from other forms of muscle testing in that it uses the latest findings of quantum and biophotonic physics to aid in the assessment of the body. This allows for a much deeper level of testing not available before to traditional kinesiologists. Tools such as a polarization filter and signal enhancers are used to get stronger, clearer feedback from the body. ART often finds things that are missed with traditional kinesiology. ART practitioners in general also have the ability to test for a wider variety of root causes of illness, including specific infections, toxins, and emotional disturbances. ART is used along with traditional tests to determine the root causes of illness. It is not used to diagnose diseases. ART has been shown to be the most accurate of all kinesiology techniques, with the best reproducibility and inter-examiner reliability.

## Autonomic Response Testing I - March 26-28, 2010

This hands-on course is the base for most of the teachings of Dr Klinghardt. ART is an extension of the physical exam and uses reflexes in the autonomic nervous system to detect the underlying causes of illness. Muscle biofeedback, arm-length testing, heart rate variability and other methods will be presented and practiced. In this course we will focus on the detection and treatment of the “7 factors” of chronic illness: food allergies, electrosmog, metal toxicity, biochemical imbalances, unresolved trauma, interference fields and occlusal problems. **March 26-28, 2010**, Holiday Inn Midtown, W. 57-th St. between 9th and 10th Avenue, taught by Sabine Schliebusch of INK, Germany.

**Cost: \$500.** Repeat Attendees: \$300. **Sign up for the entire series for \$1100.**

## Autonomic Response Testing II - April 30 - May 2, 2010

ART has emerged in Europe as the most reliable and valid method in bioenergetic testing. In this course we will focus on the non-invasive detection of heavy metals, xenobiotics and chronic infections and teach the biological and energetic treatment of these pervasive issues. Dr Klinghardt is worldwide regarded as one of the foremost experts on heavy metal toxicity and the biological treatment of chronic Lyme disease. In this method ART muscle testing is used as an extension of the physical exam to establish the tentative diagnosis. In a second step, lab tests are used to confirm the findings. With ART II it is easy to find the causal infection causing the illness -- and the proper treatment.

**April 30-May 3, 2010**, Holiday Inn Midtown, W. 57th St. between 9th and 10th Avenue, taught by Dietrich Klinghardt, MD, PhD. **Attend even if you have taken ART II before. Much is new, giving deeper and more accurate results.** Price: \$550 before March 15, 2010. After that, the price goes up to \$650. Repeater discount: \$100. Student price: \$425. Holiday Inn, West 57th St. between 9th and 10th Avenue. **Sign up for the entire series for \$1100.**

## Special Monday Class following ART II in NYC - May 3, 2010

**In a special day, Monday, May 3, you will deeply learn how to use ART II with Dr. Klinghardt's protocols for Lyme Disease and other chronic infections as the underlying cause of chronic illness.** He will introduce sound methods to diagnose and treat the intracellular environment. Learn how to use muscle testing to detect chronic viral, fungal, mycoplasmal infections, Lyme disease and other microorganisms. You will also learn treatment protocols for cancer, chronic fatigue, MS, FMS and other chronic diseases. Learn to use ART to select the most appropriate and best tolerated medication – including diagnostic and therapeutic protocols for toxic metals and xenobiotics.

Price for the one-day workshop: \$200. Price for the entire four days: \$700 before March 15, 2010; \$800 afterwards.

**Sign up for ART I, ART II and ART III in 2010: Monday class price is \$125.**

## Autonomic Response Testing III - January 28-30, 2011

**ART III** focuses on the use of Autonomic Response Testing in full sessions with patients, and how to apply ART to specific protocols. This seminar will include the application of autonomic response testing (ART) in anti-aging medicine (biological hormonal and metabolic balancing), dentistry and orthopedics. Learn the most accurate diagnostic procedures for the jaw and teeth, and the latest advances in treating Lyme disease. Dr. Klinghardt will also venture into the more mystical areas of healing and teach how to successfully address deep-seated psychological and spiritual problems. **January 28-30, 2011**, Holiday Inn Midtown, W. 57th St. between 9th and 10th Avenue, taught by Dietrich Klinghardt, MD, PhD. **Cost: \$695. Sign up for the entire series for \$1100.**
