DVD Set:
Fundamental Teachings
of Dietrich Klinghardt, MD, Ph.D.

This 5-DVD set is the gift of Dietrich Klinghardt to the many people who are suffering needlessly from chronic illness. It focuses on the deeper issues of illness. Most importantly, it focuses on the solutions.

Take a journey through the work of Dietrich Klinghardt, MD, Ph.D. Deeply understand the contributing causes to chronic illness and what to do about them. Explore the problems and the solutions. Learn to think and conceptualize as Dr. Klinghardt does. Learn about protocols that are tried and true. Learn how to combine biological treatment and energetic treatments with simple, effective mental field treatments.

For practitioners who want an introduction into the work of Dr. Klinghardt, for practitioners who want to improve your skills, and for practitioners who have studied with Dr. Klinghardt and want to give your patients this introduction so that it becomes easier to treat your patients, this DVD set is for you.

There are five DVDs in the set. Each DVD has a theme:

- The Five Levels of Healing & the Seven Factors,
- Autonomic Response Testing and Demonstration
- Heavy Metal Toxicity and Neurotoxin Elimination / Electrosmog
- Lyme Disease and Chronic Infections
- Psychoemotional Issues in Chronic Illness: Addressing Underlying Causes

There is a demonstration of Autonomic Response Testing, a demonstration of how a canopy protects against electrosmog, a demonstration of Mental Field Therapy (tapping), a demonstration of Family Constellation Therapy, a patient session, and a demonstration of Applied Psycho-Neurobiology

DVDs are available for \$145. Mention this ad and receive a 15% discount.

Special volume discount: Buy 10 or more DVD sets, and get a 10% discount off the total price.

Purchase by calling Klinghardt Academy of Neurobiology at **(303) 862-5428**.

DVDs are also available individually, at \$45/DVD.

DVDs

Mental Field Therapy 2009 DVDs. Many new techniques are introduced since the last time this course was taught. MFT is a technique and tool you will be able to use fully by the time this weekend is over. It does not require touching the client at all and is therefore suited for many practitioners from different walks of life. MFT involves a simple dialogue with the client, stimulation of several acupuncture points (the client does this), eye-movements, special techniques the practitioner uses to stabilize his or her own energy field, and several neurobiological tricks and tips.

Even though the technique was first synthesized and developed by Dr. Klinghardt to help clients to process psychological material that emerges during medical interventions in a meaningful way, a number of revolutionary new and simple uses have emerged:

- non-invasive pain control. This method has been nothing short of miraculous in permanently decreasing or erasing clients pain levels, no matter what the “physical diagnosis” is
- eliminating fears, phobias, addictions, obsessions and other self destructive behaviors in often only one single session
- increasing the tolerance to medication and medication/nutrient tissue uptake

- dropping bad habits effortless
- managing the daily stresses of life with ease
- inducing deep and nurturing sleep
- to regain total mental clarity - and quickly regain dominion over ones own feelings - in emotionally challenging situations
- to immediately and lastingly increase energy levels in fatigue and hopelessness
- to conquer chronic depression in just a few sessions
- to create inner peace in relationships
- to create success

The German Journal for Neurobiology has named MFT “the most simple and effective new therapeutic healing strategy since its introduction in Europe”. ***This is a technique that can also be used on your animals, plants, children and even unborn babies!*** Price: \$300

Healing the Brain DVDs. Dietrich Klinghardt, MD PhD & Invited Faculty:

- Neurologist and Author Eric Braverman, MD
- Daniel Amen practitioner Brian Goldman, MD
- Master Herbalist Donald J. Yance
- Lab Analysis Expert Mark Schauss
- Australian Brain Integration Expert Charles Krebs
- Coagulation Expert David Berg
- MAPS (system to repair brain dysfunction) creator Claudie Gordon-Pomares
- Pituitary Dysfunction Expert Dan Purser, MD
- Charles Gant, MD, National Integrated Health Associates
- Bruce Shelton, MD, MD(H)
- Listening Program Inventor Alex Doman
- Color and Light Therapy Expert Alice Nixon, LCSW
- Kurt Mosetter, MD, German developer of Myoreflex therapy

What you will learn is practice-changing and life-changing and may be put into effect immediately.

Is our brain in danger? What is the evidence? What can we do?

This seminal explores the hidden causes of brain dysfunction and illness in both children and adults and also carefully discuss available diagnostic and treatment options. Practitioners will come away with a synthesis of new ideas and new, cutting-edge protocols to put into their practice right away. **PRICE: \$300**

Autism the Integrative Protocol DVDs from a 4-Hour Seminar Taught by Dietrich Klinghardt, MD, PhD on Feb. 21, 2010. In the last few years, a unified Protocol for Autism Spectrum Disorders has emerged.

The Protocol pulls from many practitioners throughout the world, condensed into one simple, unified approach.

The **Protocol** combines:

- Lifestyle changes
- Creating a healthy home
- Electrosmog protection
- Behavioral approaches
- Biomedical approaches
- Detoxification approaches

- Treatment or chronic infections
- The psychospiritual

This approach has become so simple that most of it may be done by parents both with and without the supervision of a practitioner. If you are a practitioner, now you will know how to treat autism. If you are a parent, you will know what to request of your practitioner, and you will know what you may do on your own. Price: \$125

ART II 2010 DVDs: ART I introduced ways of diagnosing and treating the extra-cellular space: the ground system. In ART II we will introduce sound methods to diagnose and treat the intracellular environment. Learn how to use muscle testing to detect chronic viral, fungal, mycoplasmal infections, Lyme disease and other microorganisms. You will also learn treatment protocols for cancer, chronic fatigue, MS, FMS and other chronic diseases. Learn to use ART to select the most appropriate and best tolerated medication – including diagnostic and therapeutic protocols for toxic metals and xenobiotics. Price: \$375

Applying ART II to Lyme and Other Chronic Infections as the Underlying Cause of Chronic Illness DVDs: In a special day, Monday, May 3, you will deeply learn how to use ART II with Dr. Klinghardt’s protocols for Lyme Disease and other chronic infections as the underlying cause of chronic illness. He will introduce sound methods to diagnose and treat the intracellular environment. Learn how to use muscle testing to detect chronic viral, fungal, mycoplasmal infections, Lyme disease and other microorganisms. You will also learn treatment protocols for cancer, chronic fatigue, MS, FMS and other chronic diseases. Learn to use ART to select the most appropriate and best tolerated medication – including diagnostic and therapeutic protocols for toxic metals and xenobiotics. Price: \$225

ART II Demonstration DVDs: Demonstrations filmed during ART II in 2009. Many new techniques were introduced. This is a great way to bring yourself up to date and improve your ART II techniques. Price: \$175, includes ART II flow chart.

ART III Demonstrations of Full Sessions DVDs. Demonstrations filmed during ART III in 2009. Watch several demonstrations of sessions from beginning to end, just like working with patients. Price: \$150

Manuals

ART II Protocols Manual 2010: Includes the most up to date protocols for Lyme and Other Co-Infections, Autism, Bee Venom and more. Price \$99

Mental Field Therapy 2009: Manual to accompany Mental Field Therapy DVDs from 2009. Price: \$60

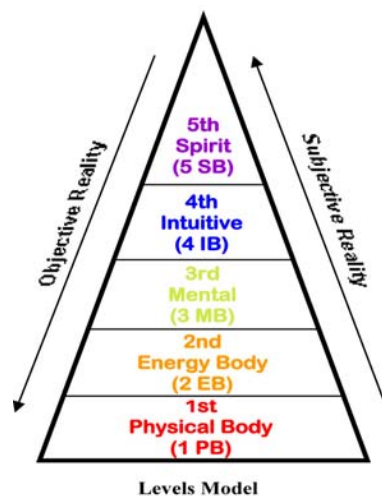

6-Day Retreat Manual 2009. ART, Neural Therapy, APN. Price: \$99

Fundamentals to Photons Manual: Protocols for detoxification. Includes recipes for coffee enemas, using cold lasers, castor oil packs, and more. Price: \$60

Five Levels of Healing

The basis of the work of Dietrich Klinghardt, MD, Ph.D. is his **Five Levels of Healing**. He developed this systematic model of healing in the 1980s and has been teaching it to practitioners all over the world since then. Many doctors and healers have been able to understand their own work better and have been able to make better choices for their patients and their own education based on this understanding. This model has entered the heart and conscious reality of integrative medicine worldwide.

The **Five Levels of Healing** teaches us that we exist in different dimensions simultaneously. The physical body exists within a sphere of invisible energy bodies that each has their own anatomy and physiology. There is an alive and profound interaction between the different levels. Every ancient culture knows this system and has described it in different terms..

The lowest level is the physical body. It is the foundation upon which everything else rests. It is our connection to the earth and the source of our physical energy. The physical body is identical with what we see, feel, hear, smell and taste. It ends at the skin. It is what we perceive with our five senses. Everything from the PDR, herbal medicine, low potency homeopathics to orthomolecular medicine belongs here.

Dr. Klinghardt uses **Autonomic Response Testing (ART)** to evaluate the patient. ART is the author's advanced composite of hands-on examination techniques that uses changes in the autonomic nervous system as the primary indicator of practitioner-elicited stress responses in the client's body. The "direct resonance phenomenon" (**ART II**) allows the practitioner to scan the body for specific infections, toxins and other "invisible" problems.

The second level is the energy body or "body electric." It is the summation of all electric and magnetic events caused by the neuronal activity of the nervous system. Because most somatic and autonomic nerves in the body travel in the longitudinal axis of the body and the nerve currents spread as electric fields along these nerves, the magnetic fields created by these forces travel perpendicular to this axis into space. Even though their strength decreases with distance from the body, they extend into space beyond the skin. The most profound new knowledge on this level comes from the physicist Fritz-Albert Popp: each cell emits biophotons:

light, which is highly coherent, polarized and "squeezed". The biophoton field created by the light emissions around the body regulates most metabolic enzymes inside the cells. It modulates neural transmission, neurotransmitter releases, detoxification and many other body functions. **Neural Therapy** fits here. Neural Therapy is a traditional German technique to balance the autonomic nervous system with injections of procaine, homeopathics, Enderlein remedies and more recently also with the use of microcurrent technology. Energy medicine tools are also on this level.

The next higher body, the mental body or mental field, extends theoretically into infinity squared, and the higher two levels extend beyond that. Beliefs, attitudes and thoughts form and organize this level. There is an individual mental field and a consensus field (consensus reality). Every emotion (2nd level) is preceded by a perception and a thought or chain of thoughts. Thoughts trigger emotions and other energy body changes, which in turn trigger change in the physical body. We are all surrounded by our own mental field, which in turn interrelates with the field of our human species. A mental field can be healthy and can be sick.

APN, PK and MFT are tools that belong here. APN stands for **Applied Psycho-Neurobiology** and is the author's composite of most current energy psychology techniques also with elements of Eriksonian hypnotherapy, Gestalt therapy, family systems oriented psychotherapy and past-life therapy.

MFT or **Mental Field Therapy** is a technique within APN that focuses on level 3 of this healing system. It does not require muscle testing or other biofeedback techniques. It deals primarily with restricting belief systems and aims at resolving conflicts and trauma. It has emerged in Europe as the leading form of "energy psychology."

Psychokinesiology (PK) uses ART techniques to dialogue with the subconscious. It allows to retrieve and heal suppressed pain and memories in gentle, simple, brief and effective ways. This author's textbook in Germany has been a bestseller in Europe for over 10 years.

The fourth level is a level beyond the mind and beyond language. It is the home of near-death experiences, past-lives, archetypes, spirit possession, ecstatic states, karma and the expression of unresolved trans-generational family issues. The highest level at which an interaction between physician and client is possible is the fourth level. This level is the “**dream body or intuitive body**”. Healing on this level often leads to instant disappearance of the associated unresolved conflicts on the third level. At the same time, the energy required for healing work has to flow upward from the lower energy supplying levels. Simple interventions on the lower three levels lay the foundation to make the work on the fourth level possible and create boundaries for their individual to exist in. The family constellation work of Bert Hellinger is taught and offered by Dr. Klinghardt and resolves family and generational conflicts at this level.

Bert Hellinger’s **Family Systems Constellation Therapy** and **Advanced APN (APN II)** are very effective at resolving most issues that belong to this level. A family system is comprised of the genetically linked persons of the last three generations and all of their respective partners.

The fifth level is the “spirit body”, and the only relationship that exists here is the relationship between the individual and their god. It would be a good start, if after resolution of the physical problem both the physician and the patient turned inwards and upwards with an attitude of gratefulness. Simply praying or meditating may not be enough. If the work on the fifth level is not completed there may be a gradual relapse of the patient’s condition. The laws that are operative here are gradually revealed to us as we mature.

The vertical healing system can be a valuable foundation for understanding truly what holistic medicine is and gives the practitioner a road map that makes it easier to navigate the sometime chaotic landscape of healing techniques. Healing is only in a minor way dependent on the skill of the practitioner, but in a major way dependent on the attitude of both patient and practitioner.

According to Dr. Klinghardt,

“I have tried to give some guidelines for practitioners who desire to achieve higher levels of competence, satisfaction, and organization in their work. Healing is the greatest of all the joys. Whenever a client performs the miracle of the inner movement called “healing,” there should be gratefulness and humbleness, not only by the patient but also by the practitioner. When certain unwritten laws are respected, healing occurs much more frequently than otherwise. Healing is only in a minor way dependent on the skill of the practitioner, but in a major way dependent on the attitude of both patient and practitioner.”

LEVEL I: AUTONOMIC RESPONSE TESTING

Autonomic Response Testing Seminar Series

Autonomic Response Testing I

This hands-on course is the base for most of the teachings of Dr Klinghardt. ART is an extension of the physical exam and uses reflexes in the autonomic nervous system to detect the underlying causes of illness. Muscle biofeedback, arm-length testing, heart rate variability and other methods will be presented and practiced. In this course we will focus on the detection and treatment of the “7 factors” of chronic illness: food allergies, electrosmog, metal toxicity, biochemical imbalances, unresolved trauma, interference fields and occlusal problems.

Autonomic Response Testing II

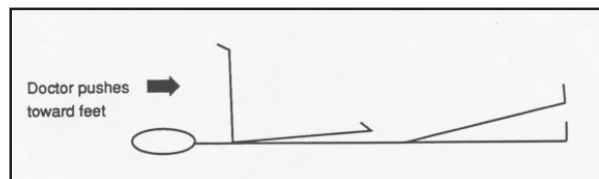

ART has emerged in Europe as the most reliable and valid method in bioenergetic testing. In this course we will focus on the non-invasive detection of heavy metals, xenobiotics and chronic infections and teach the biological and energetic treatment of these pervasive issues. Dr Klinghardt is worldwide regarded as one of the foremost experts on heavy metal toxicity and the biological treatment of chronic Lyme disease. In this method ART muscle testing is used as an extension of the physical exam to establish the tentative diagnosis. In a second step, lab tests are used to confirm the findings. With ART II it is easy to find the causal infection causing the illness -- and the proper treatment.

Prerequisite: ART I

Autonomic Response Testing III

In this course we teach how to apply the principles of ART to the treatment and management of acute and chronic illness. We focus on demonstrations of full sessions. We teach the application of ART in anti-aging medicine (biological hormonal and metabolic balancing), dentistry and orthopedics.

Prerequisites: ART I and ART II

Autonomic Response Testing I

- February 6-7, 2010, San Jose Marriott, San Jose, CA
- March 26-28, 2010, Holiday Inn Midtown, New York City
- September 17-19, 2010, Bellevue, WA

This is a practical hands-on course, where you will learn to use muscle testing to diagnose food allergies, geopathic stress, biophysical stress and interference fields. Find and prioritize stressed organs and structures, emotional blocks, heavy metal toxicity and dental problems. Understand the seven factors of illness. Find the underlying cause of many chronic illnesses. Learn how to prioritize treatment protocols for any chronic or acute illness. **Taught by Amy Derksen, ND in CA, Sabine Schliebusch of INK, Germany in NYC and Andreanna Rainville, RN in Bellevue, WA.**

ART is different from other forms of muscle testing in that it uses the latest findings of quantum and biophotonic physics to aid in the assessment of the body. This allows for a much deeper level of testing not available before to traditional kinesiologists. Tools such as a polarization filter and signal enhancers are used to get stronger, clearer feedback from the body. ART often finds things that are missed with traditional kinesiology. ART practitioners in general also have the ability to test for a wider variety of root causes of illness, including specific infections, toxins, and emotional disturbances. ART is used along with traditional tests to determine the root causes of illness. It is not used to diagnose diseases. ART has been shown to be the most accurate of all kinesiology techniques, with the best reproducibility and inter-examiner reliability.

Autonomic Response Testing III in NYC

February 11-14, 2011, taught by Dr. Klinghardt

Dr. Klinghardt will reveal advanced techniques in bio-energetic testing using techniques that have been developed over the last four years at his private clinic and at his research Institute in Germany. The focus of this training is on the biophoton field and the detection of perturbances in the field, their meaning and the most effective and least invasive ways to correct them.

The seminar will include the application of autonomic response testing (ART) in anti-aging medicine (biological hormonal and metabolic balancing), dentistry and orthopedics. Learn the most accurate diagnostic procedures for the jaw and teeth, and the latest advances in treating Lyme disease. Dr. Klinghardt will also venture into the more mystical areas of healing and teach how to successfully address deep-seated psychological and spiritual problems. This is an advanced workshop and is strictly limited to those who have attended and mastered ART I and ART II. **Cost: \$695**

Materials and Supplies for the ART Practitioner

Signal Enhancer:

Made from a special high grade plastic material with a pure perfect crystalline molecular lattice structure. Any substance placed on the signal enhancer in the vicinity of any biological system is perceived by that biological system as strong as if it would have been already ingested. It is far superior in sensitivity and specificity in comparison to placing a substance in the palm or on the body of the client. If several signal enhancers are in the same room, connected via the ambient room light, they communicate, or resonate with each other.

Signal enhancers come in:

- regular size,
- mini-size
- etched with a polarized ring,
- with ampoule holders
- direct resonance rod.

Polarized Filter (Pol Filter):

Organisms emit highly polarized light. When a cell, group of cells, or organ is disturbed in its health, the polarization angle changes. The polarization angle can be measured with a special linear polfilter, by applying the knowledge of the direct resonance phenomenon (ART II). This method measures and analyzes the properties of the mental field. It is the first and currently the only precision method to achieve this.

Laser Signal Enhancer

Signal enhancer designed to hold a laser, as taught in Autonomic Response Testing classes.

Test Kits, Slides and CDs are used for diagnosis and for treatment

Test kits include:

- Heavy Metals test kit
- Allergen test kit
- Hormone balancing test kit
- Noradrenalin Test Kit
- Acetylcholine Test Kit
- Prenatal and Vaccinations Test Kit
- Homeopathic Nosode and Antibiotic Test Kit
- Xenobiotics Test Kit

Organic Cotton Carrying cases are available for test vials.

Slides include:

- Lyme and Co-infections (Virus, Lyme and Nanobacteria) - 11 slides
- Parasite slides - 68 slides, with Dog Tapeworm set
- Differential Diagnosis of Cancer - 103 slides
- Dental Pathology - 42 slides
- Physiological Tissue Slides - slides of healthy body tissue - 29 slides

Slides were prepared using high resolution photography to capture the frequency spectrum of live microbes (without the possibility of microbial contamination). The slides are never to be touched by a hand, not to be exposed to sunlight, essential oils, human breath or other types of micro pollution.

CDs:

These microbial inhibition CDs have captured the sounds of the micro-organisms. The CDs contain microbial information, which is recognized by the immune system and will often lead to an appropriate and strong immune response. Place the CD face down on the signal enhancer and test like any other test vial. Several healing applications include: (1) headphones over ears, bone, soft tissue, (2) loudspeaker at low volume, (3) headphones over signal enhancer to broadcast information into the room, (4) broadcasting the information into the field around the client with infrared cordless headphones set up with a CD player.

CDs include the following (CD's are also sold separately):

- Microbial Inhibition set of 5 CDs: Parasite, Fungi, Virus, Bacteria 1 & 2.
- Lyme Microbial Set of 11 CDs: Babesia microtil, Bartonella henselae, Borrelia burgdorferi, Borrelia burgdorferi 2, Borrelia borgdorferi, Chlamydiae pneumoniae, Ehrlichia equii, Herpes Simplex, Mycoplasma pneumoniae, Rickettsia, Vogelgrippe.
- Color Frequency CDs Set of 4: Rose, White/Gold/Silver, Yellow/Orange/Red, Green/Blue/Violet.

Charts:

- ART I Flow Chart
- ART II Flow Chart
- Dental Relationship Chart (8.5 x 14)
- Application of Color Filters
- 5 Element Relationships
- 3 Major cycles within the 5 Element chart
- 5 Levels of Healing
- Fraunhofer Color Chart for Specific Metals
- Unresolved Feelings and their Target Organs
- Organ Representation Area of the Hand Chart by the Bi-Digital O-Ring Test

Color Therapy Glasses:

9 colors: red, magenta, orange, yellow, green, turquoise, blue, indigo, violet.
Colors also sold separately.

Pendulum:

For eye movement technique

DVDs and Manuals for the ART Practitioner

ART I:

Includes basic principles, tools, the ART exam, neurogenic switching, the ART body scan, the Yin state, the Broeckel scan, allergy testing, ART flow chart. *DVD, Manual*

ART II:

Anatomy and physiology, blocked regulation, allergy testing, signal enhancer and polfilter, switching, direct resonance, quantitative assessment, interference fields, oil testing, dental testing, ART procedures for hormone balancing, detoxing the ground system from drug residues, stealth pathogens, relationship between chronic illness and microorganisms, healing work with light, suggestions for patient management. *DVD, Manual*

ART III:

Autonomic Response Testing (ART) III. Applying the principles of ART to the treatment and management of acute and chronic illness. Includes protocols and case studies. The application of ART in anti-aging medicine (biological hormonal and metabolic balancing). *Manual*

Peer Review Literature on Autonomic Response Testing: Compiled by Dr. Klinghardt July 13, 2000. *Manual*

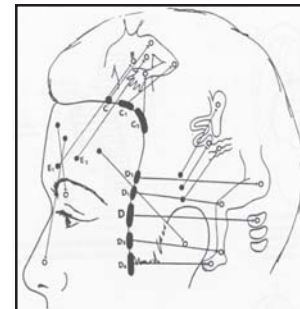

Autonomic Response Testing (ART): A Patient's Guide to Understanding Autonomic Nervous System Biofeedback Muscle Testing for In-Office and At Home Therapy. Also included: Scar treatment, autoimmune dysregulation, drug uptake enhancement, other ANS biofeedback tests other functional assessments. *Manual*

LEVEL 2: NEURAL THERAPY

Neural Therapy Seminar Series

taught by Jeff Harris, ND

Dietrich Klinghardt, MD, PhD says of Jeff Harris, ND: "Dr. Harris is one of the best neural therapists in the world."

Neural Therapy 1

Learn how Neural Therapy works, the history, theories and practical applications. Learn how to take patient histories in the neural therapy style. Learn treatments for pain, allergies, headaches, asthma, and more. Practicum with supervision for scar treatments, segmental therapy and trigger point therapy.

Neural Therapy 2

Neural Therapy 2 trains the practitioner in more advanced injections that are used to regulate the autonomic nervous system and bring about healing. While NT 1 dealt with the nerve endings in the skin, NT 2 goes to the deeper interferences in the ANS. In NT 2 you learn the most common and easier of the Neural therapy deeper injections. The practitioner of Neural Therapy will find the injections taught in NT 2 are ones that can bring healing and relief to a large variety of patients with myriad afflictions because they treat areas where the general population frequently has interference fields. The injections taught in NT 2 are used multiple times a day with good success. The participant will also be trained in a simple form of ART as it relates directly to Neural Therapy practice. Completion of Neural Therapy 1 is required to take this training.

Neural Therapy 3

Neural Therapy 3 is for those who have completed levels 1 and 2 and want to advance their technique and expertise. This training includes injections that have to do with interference fields of the head, sinuses, sacrum and hip. There is a recent advance in the pelvic injection that is taught along with injections to support dental treatment. ART techniques will be integrated into the training including yin and yang supplement testing and the use of the laser to treat the Biofield.

Neural Therapy Course B:

The Neurology of the Autonomic Nervous System. Neural Therapy injection/theories, superficial injections, deep injections, the ganglia: diagnosis and injection sites, protocols. *DVD, Manual*

Neural Therapy B Addendum

Ganglia, DMPS, bee venom, neural therapy with bee venom, mercury toxicity and systemic elimination agents. *Manual*

Neural Therapy Without Needles

Neural therapy is classically treat by injection of local anesthetic. It has been primarily used as the key therapeutic measure for treating “foci” or “interference fields” -- chronic, often symptomless areas of dysfunction that have lost their normal autonomic “regulation” or balance, that often create distal pain or dysfunction. Neural Therapy may include any therapeutic method which can successfully restore autonomic function to allow the focal area time to heal. Neural Therapy can also be used to treat other problems besides chronic foci. It is an excellent treatment for acute injuries, sudden upper respiratory infections, nausea and acute gastritis, etc. *Manual*

Creating a Healthy Home

Along with Dr. Klinghardt, speakers included builders, architects, physicians, health practitioners and other practitioners that include environmental sensitivity in their work. 25 principles of healthy building biology, also known as Bau Biology, and how to recognize and undo electrosmog in our homes, how to recognize and treat fungal related illnesses, test panels for immunological reactions to toxic chemicals and heavy metals, possible exposure to toxigenic molds at home as well as in the workplace Other highlights: building healthy homes, taking an environmental medical history, environmentally safe cleaning products, flame retardants, toxic metals and plastics found in the home. Checking for geopathic stress in the bedroom is of high priority. Electromagnetic fields in cars and in the workplace. *DVDs, Manual*

Geopathic Stress and the Healthy Home

Dietrich Klinghardt, MD, Ph.D. and Robert Stellar. Electro-biology with a focus on the health hazards of magnetic fields as well as high frequency and the adverse health effects of wireless communication technology. *DVDs, Manual*

APN Seminar Series

The practical application of Applied Psycho-Neurobiology utilizes all that is known and true in psychology, psychotherapy, counseling, psychiatry, neurology, neurosurgery, physiology, and techniques that exert their healing effect primarily over the ANS. These techniques include neuralkinesiology, applied kinesiology, neural therapy, acupuncture, chiropractic, syntonics optometry, biology and all recent combination of the above, such as neuropsychology, with the clear intention to use this knowledge for the healing of our patients. The theory and practical application of APN is a synthesis of the work of many researchers, psychologists, chiropractors, medical doctors and others.

Applied Psycho-Neurobiology (APN I): Psycho-Kinesiology & Mental Field Therapy

Psycho-Kinesiology is today the most elegant form of biofeedback counseling. The ART muscle test is used to engage the subconscious mind in a conversation and reveal unresolved deep seated conflicts and post-traumatic stress states. The underlying cause of most illnesses, unwellness, premature aging, hormonal problems, chronic pain and other issues can be uncovered in minutes - and healed. For over 12 years PK has been the fastest growing new technique in humanistic psychology in Europe. Goal of PK is to make traumatic events from the past conscious (unless they already are), uncouple their ill-making effect from the ANS and replace limiting beliefs that have been created, as an ineffective way to deal with trauma, with liberating beliefs.

Pioneered by Roger Callahan, Ph.D., Mental Field Therapy should be considered the first line of treatment for any physical, emotional and psychological condition before resorting to other interventions. Back pain and other orthopedic conditions, all acute emotional crisis states, psychological conditions, and most medical problems respond partially or completely to this approach. Patients with mental field detachments suffer from depression, phobias, fears, compulsiveness, chronic pain and much more. All chronic illnesses have an element of field distortion or detachment. They are typically resistant to conventional medicine and psychotherapy, alternative therapies and psychic healing. These patients need a simple but specific intervention. The approach is called Mental Field Therapy and is a primary healing tool for our five levels of healing.

In APN 1, Dr. Klinghardt teaches the fastest and most effective forms of this new domain within Integrative Medicine: Mental Field Technique (MFT) and Psychokinesiology (PK). His 1996 German book: "Psychokinesiologie" has become a bestseller in Europe and has been translated into many languages. The techniques are simple, the results astounding. This method is suitable for MDs, dentists and all other health care providers.

Applied Psycho-Neurobiology (APN II): Systemic Energy Psychology

ART/ muscle-testing guided counseling is used to help resolve systemic family conflicts and restore love and honoring between both living and deceased family members. Applied Psycho-Neurobiology II is the integration of family systems oriented psychotherapy into mental field therapy, ART and psycho-kinesiology. Prerequisite: ART I

Advanced Energy Psychology Techniques (APN II)

Chronic health problems are often misunderstood. Clients frequently fail to respond to reasonable healing interventions because of a simple truth: the unsuccessful treatments were directed at the symptom, not the cause. The true entry point or impact of the illness-causing energetics occurs in a higher dimension and trickles down to the emotional or physical realm.

In this exciting and practical workshop we will explore the most frequent hidden causes of chronic illness: 1. unresolved transgenerational ancestral trauma in the client's family, 2. pain and conflict carried over from a past life, 3. the effect deceased family members and friends can have on our health. During this weekend you will learn three simple, practical and yet powerful tools to diagnose and treat on the "4th level": Genogram development and its practical application; Bert Hellinger's systemic psychology and constellation work; Dr. Klinghardt's psychokinesiology and brief healing visualizations

By applying these simple methods magical healing is often possible where conventional and alternative methods have failed. We will explore specifics in the treatment of developmental childhood disorders (autism, seizures, dyslexia etc), cancer, chronic fatigue, MCS and chronic pain. There will be many demonstrations, time for hands-on practice and presentation of case studies.

APN DVDs and Manuals

Applied Psycho-Neurobiology (APN I): Psycho-Kinesiology & Mental Field Therapy

Healing the mental body with APN, mental field therapy technique, mental field therapy without ART, mental field therapy anatomy and procedures, special applications of MFT, MFT in the flow of ART, PsychoKinesiology: the four steps to healing the mental body, the unresolved psychoemotional conflict (UPEC), mental switching, basic procedures of PK, PK flow chart, ART flow chart basic procedures for opening regulation, correcting neurogenic switching, post-traumatic stress disorder, uncoupling the ANS, allergy desensitization, APN after therapeutic intervention. *Manual, DVD*

Healing the mental body with APN, mental field therapy technique, mental field therapy without ART, mental field therapy anatomy and procedures, special applications of MFT, MFT in the flow of ART, PsychoKinesiology: the four steps to healing the mental body, the unresolved psycho-emotional conflict (UPEC), mental switching, basic procedures of PK, PK flow chart, ART flow chart. *DVD, Manual*

Family Constellations Training (Systemic Energy Psychology)

Family constellation guidelines, dialogues to consider in constellations, representative guidelines, what happens after a constellation, partners in dialogue, what happens in a family workshop, the attitude of the facilitator in family constellations, constellation closing ceremony: our shared human experience, acknowledging what is true, right and perfect in the grand design. *DVD: Family Constellation Training, DVD: Healing the Relationship with Your Mother*

Systemic Energy Psychology: Advanced Applied Psycho Neurobiology II

The integration of family systems oriented psychotherapy into Mental Field Therapy, ART and Psycho-Kinesiology. About family systems, systemic MFT, tapping, integrating the family system into MFT, Integrating ART, systemic PK flow chart, ART I flow chart, morphic fields, polyvagal theory of emotions, examples of genograms. *DVD, Manual*

LEVEL 4: HELLINGER FAMILY CONSTELLATION THERAPY

The Heart of Healing: Family Constellation Therapy

Shortly after conception the mother downloads much unresolved pain, conflicts, traumatic experiences and unconscious longings into her unborn child through a process called “imprinting”. Later in childhood also the unresolved issues from the father appear in the field of the child. The imprint determines the physical and psychological development of the child and plays a large part in the tendency to suffer illnesses such as autism, learning disorders, immune dysfunction, inability to detoxify, seizure disorders and brain cancer.

Later in life the “downloads” from both parents play an important role in the development of physical illness, psychological problems, ineffective life strategies, relationship, job and financial problems, in seemingly random occurring traumatic events, and more. The unresolved issues transferred into the field of the child can stem from the life of the parents or from ancestors much further back and can be unraveled, understood and healed with this work- even generations later.

Bert Hellinger’s family constellation work has emerged as one of the most powerful tools in the truly integrative practice of medicine. It is a firm part of Dr Klinghardt’s teaching of the “five levels of healing”. He is one of the most gifted and well trained masters of this work in the US with over 12 years of teaching experience in systemic family therapy. This modality has been valuable in the healing of neurologically impaired children, patients with genetic and other deep seated medical issues, in the healing of relationships, life circumstances and more. The timing of the other modules will be decided by the course participants at this meeting. Dr Klinghardt uses a modification of Bert Hellinger’s family constellation approach.

With this work obstacles to the clients health, life and energy field can be elegantly removed. Healing and greater levels of natural order can be brought to the family and the surrounding spirit world.

Healing the Brain 2010

Is our brain in danger? What is the evidence? What can we do? The incidence and severity of neurological illness is on the rise. It is estimated that today only one in four children is neurologically and developmentally healthy and well by age 6 - an increase of several hundred percent in recent years. ALS, Parkinson's, Alzheimer's disease, autism and other disorders of the central nervous system are increasing exponentially.

Something is happening. What is it? In this workshop we will explore the hidden causes of brain dysfunction and illness in both children and adults and also carefully discuss available diagnostic and treatment options. Practitioners will come away with a synthesis of new ideas and new, cutting-edge protocols to put into their practice right away. What you will learn from these DVDs is practice-changing and life-changing and may be put into effect immediately. Faculty:

- Neurologist and Author Eric Braverman, MD
- Daniel Amen practitioner Brian Goldman, MD
- Master Herbalist Donald J. Yance
- Lab Analysis Expert Mark Schauss
- Australian Brain Integration Expert Charles Krebs
- Coagulation Expert David Berg
- MAPS (system to repair brain dysfunction) creator Claudie Gordon-Pomares
- Pituitary Dysfunction Expert Dan Purser, MD
- Charles Gant, MD, National Integrated Health Associates
- Bruce Shelton, MD, MD(H)
- Listening Program Inventor Alex Doman

Lyme and Other Chronic Infections as the Underlying Cause of

Chronic Illness. A look beyond antibiotics, neurotoxicology, jaw bone infections in the chronic Lyme patient, autism and Lyme disease, lab testing for mold, Lyme and coinfections, solvent and plastic toxicity. The important of exploring and addressing the microbes and infections connected with and underlying our chronic illnesses cannot be understated. *DVD, Manual.*

Chemical and Heavy Metal Toxicity Conference 2009: The latest findings and research in the field of chemical and heavy metal detoxification. Dietrich Klinghardt, MD, Ph.D. and many speakers. Detoxification in a holistic medical practice - 30 years of clinical experience, the latest technology for diagnosis, essential screening methods of the environmentally toxic patient, treatment pearls, cases and protocols, the scientific link between jaw bone infections and neurodegenerative diseases, balancing the terrain to understand and avoid adverse detox reactions, laser photophoresis for effective detoxification, the correct use of the most effective agents currently available, politics in medicine and why the mercury issue has not gone away, the psychological profile of the metal toxic patient. *DVD, Manual*

The Science of Using Color, Sound and Frequency as Medicine

2003. Includes numerous articles by experts in their respective fields, including Dietrich Klinghardt, MD., Ph.D. *Manual*

Third Annual Conference of Applied Neurobiology: Energy Medicine: A Blueprint for Mindful Medicine in the 21st Century, 2003.

Dietrich Klinghardt, MD, Ph.D., Ken Wolcuff, MD on the Core of Healing, Steven Vazquez, Ph.D. on the next dimension in healing--energy medicine and psychotherapy, Valerie Hunt, Ed.D. on what works best with whom, why and when (energy field transactions between patient, therapist and techniques), Roger Callahan, Ph.D. on the single most important measure of your health and longevity and what you can do about it, Joseph Mercola, DO on what is important for health, John Martin, MD on alternative cellular energy pigments, Richard Loyd on microbial inhibition frequencies. *Manual*

Amalgam Detox. Symptoms of mercury toxicity, metal toxicity and infections, amalgam detox as a treatment for infections, mercury detox with DMPS and neural therapy, chlorella for detox, other uses of chlorella heavy metal and autism, mercury in the heart. *Manual*

Experienced Practitioner's Week-Long Retreat

August 22-28, 2010, Whidbey Institute, WA
Dietrich Klinghardt, MD, PH.D.

This 6-day retreat is a time to experience and get a deeper understanding of Dr. Klinghardt's holistic method of true psycho-somatic medicine: the "5 Levels of Healing". In this workshop we will address all five levels. Autonomic Response Testing, Neural therapy, Matrix Therapy, Applied Psycho-Neurobiology, and Family Constellation Therapy will be included. Heavy Metal Detoxification, Treatment of Chronic Infections and more will be addressed. Observe Dr. Klinghardt work with patients. Practice, practice, practice under supervision in a retreat environment.

Physical level: ART I, II and III, O-Ring testing, yin and yang states. Lectures on the appropriate use and interpretation of meaningful lab work and imaging techniques, dentistry, heavy metal detoxification, Lyme disease, true spirituality, energy body illnesses, and others.

Energy level: Neural Therapy demonstrations, electrosmog, geopathic and biophysical stress management, and more

Mental level: APN, mental field therapy (we'll have sessions clearing out old trauma and unresolved psycho-emotional conflicts), journaling, color therapy.

Intuitive level: Family constellation work and APN II.

Tuition fee is \$1,500 until April 15, 2010. If there are any spots left after April 15th, tuition goes up to \$1650. Tuition includes all presentations and course materials. A \$300 deposit holds your place. Accommodations and meals are not included. Participants will stay at Whidbey Institute or at Aldermarsh, a short walk away. More details upon registration.

The Whidbey Institute is a retreat center with a mission to connect the human spirit with the natural world through education, reflection, and experience, liberating the capacity to serve the common good. It includes 70 acres of evergreen forest and meadow lands laced with a network of walking trails and a labyrinth. We will be taking over the entire retreat center.

Cancer Strategies: Improving Outcomes and Quality of Life

December 3-5, 2010
Hyatt Regency Bellevue, Seattle area

In this conference, we will illuminate the cutting edge in cancer treatments that work on all five levels. Our speakers will share their insight into what is working intelligently and successfully with the least harm to the body, and nourishing to the soul and psyche. Emerging research, external contributing causes, such as chemicals, heavy metals, hidden infections, psychological and other stressors, lifestyle factors including diet and exercise, inflammatory markers, immune system enhancement and more will all be explored.

Participants will take away new ideas in how to work with cancer, cancer prevention, new thoughts and ideas, a sense of hope for those who have cancer, the importance of exploring all five levels and more.

Our Faculty: Dietrich Klinghardt, MD, PhD, Donald J. Yance, CN, MH (AHG), Dwight McKee, MD, Robert Zieve, MD, Gilbert Renaud and many more speakers including European energy medicine practices.

Klinghardt Academy of Neurobiology Faculty

Dietrich Klinghardt, MD, PhD, is Founder of the Klinghardt Academy of Neurobiology (www.klinghardtneurobiology.com), and lead clinician at the Comprehensive Medical Center located in Kirkland, Washington. He has been synthesizing traditional and alternative medicine for more than 32 years. In Stuttgart, Germany he has established in 1994 the “INK (Institut fuer Neurobiologie nach Klinghardt)” which oversees the training of European doctors and dentists in applied neurobiology, psychokinesiology and autonomic response testing. The institute offers CME credit for most its courses, offers competence exams and keeps records of treatment outcomes.

Internationally known for his successful treatment of chronic pain and illness, Dr. Klinghardt’s holistic technique combines principles of non-surgical orthopedic medicine with those of immunology, endocrinology, toxicology, neural therapy, hypnotherapy and energy psychology.

Dr. Klinghardt developed ART (autonomic response testing), a comprehensive diagnostic system that has helped to transform many practices in the US and abroad into healing centers - and helped many practitioners to become accomplished wholistic physicians. His teaching and philosophy include insights into the influence of the family system on one’s health through working with family-systems oriented healing-approaches developed by psychoanalyst, Bert Hellinger.

Due to his innovative contributions to Neural Therapy, Acupuncture, Homeopathy, Energy Medicine and Energy Psychology, Dr. Klinghardt is regularly invited to teach workshops at the prestigious “Medicine Week” in Baden-Baden, Germany. He is the author of a groundbreaking German book on musclefeedback-guided psychotherapy titled, “Psychokinesiology – A new Approach in Psychosomatic Medicine.” He has been instrumental in advancing various fields within Biological Medicine: the non-biochemical treatment of chronic infections and toxic states, modern Homeopathy, non-invasive pain management, injection techniques for pain and orthopedic dysfunction, anti-aging medicine, toxicology, pediatrics (treatment of neuro-developmental disorders), energy psychology, biological dentistry and others.

In recognition of his work he received the reward “physician of the year” by the Global Foundation of Integrative Medicine in May 2007.

Jeff Harris, ND: Dr Harris has specialized in Neural Therapy for 16 years. He is a naturopathic physician, in private practice in the Green Lake area of Seattle. He trains neural therapists all over the country and teaches neural therapy at Bastyr College in Seattle. Visit his website at www.jeffharrisnd.com.

Amy Derksen, ND: Amy Derksen, ND is a Naturopathic and DAN! Physician practicing in Washington state. She was fortunate enough to do her medical post-graduate training with Dr. Dietrich Klinghardt, MD, PhD for over 2 years. During that training she learned extensively how to use his system of autonomic response testing to help with tailoring a protocol to each individual. She specializes in working with both autism and chronically ill patients, including Lyme disease. Every teacher offers their own spin on the classes they teach. Even if you have taken ART before, consider attending this seminar.

Andreanna Rainville, RN: For the past ten years, Andreanna Rainville, RN has been teaching basic seminars on behalf of Dietrich Klinghardt, MD, PhD in Autonomic Response Testing, both in the United States and in Europe. She teaches classes to health care practitioners, speaks at conferences, provides private tutoring to MDs, DOs, NDs, DDSs, etc. and supports many of Dr. Klinghardt’s patients via phone consultation and independent clinical care.

Sabine Schliebusch: Sabine has been working together with Dietrich Klinghardt, MD, PhD in Germany for the past ten years. Sabine is a superb practitioner. She is Germany’s main teacher of both Autonomic Response Testing and Psychokinesiology (PK), and she has clients in New York as well.

Academy Director: Eve Greenberg, LPC, CTN, CN: Eve is a Licensed Counselor, Certified Traditional Naturopath and Certified Nutritionist who has been studying with Dr. Klinghardt for many years. She has been on the faculty of the psychology departments of the University Systems of NH and CO and Naropa University. As a psychotherapist her focus was transpersonal. Eve has been a workshop presenter on varied topics, and has trained therapists internationally. Eve is a staff reporter for *Explore! Magazine*. In addition to Dr. Klinghardt, Eve has studied integrative modalities with Robert Zieve, MD, Donald Yance, CN, MH (AHG), Steven Vazquez, Ph.D. and Dickson Thom, DDS, ND. Prior to the Academy, Eve was office manager and homeopathic medical assistant to Robert Zieve, MD.
